

Imagination

is the only thing we can't brake

Imagine ...

... a company with a clear vision
for customer satisfaction

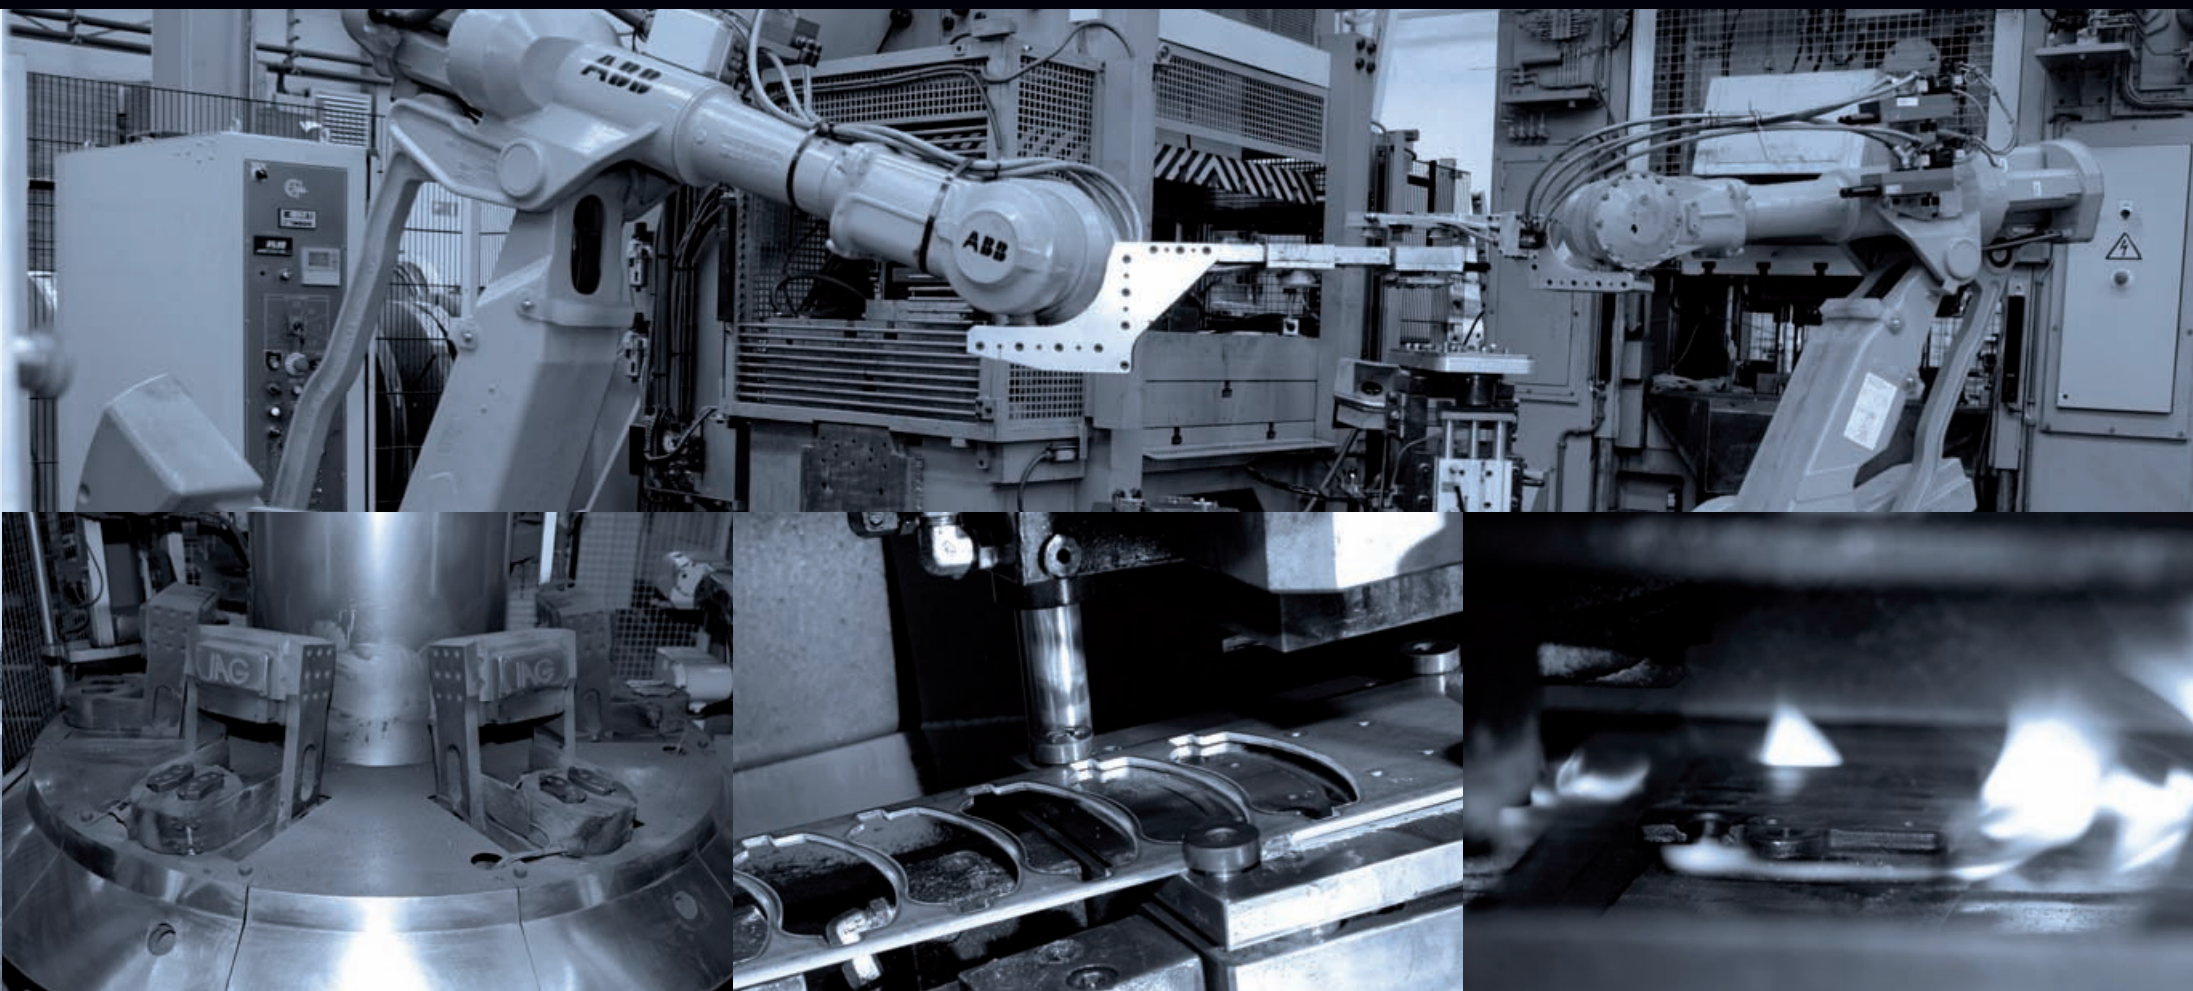

... the assurance of always
finding what you are looking for

... the quickest and the most
comprehensive world class service

... a company that offers you the most
advanced technology and the widest
product range in the world

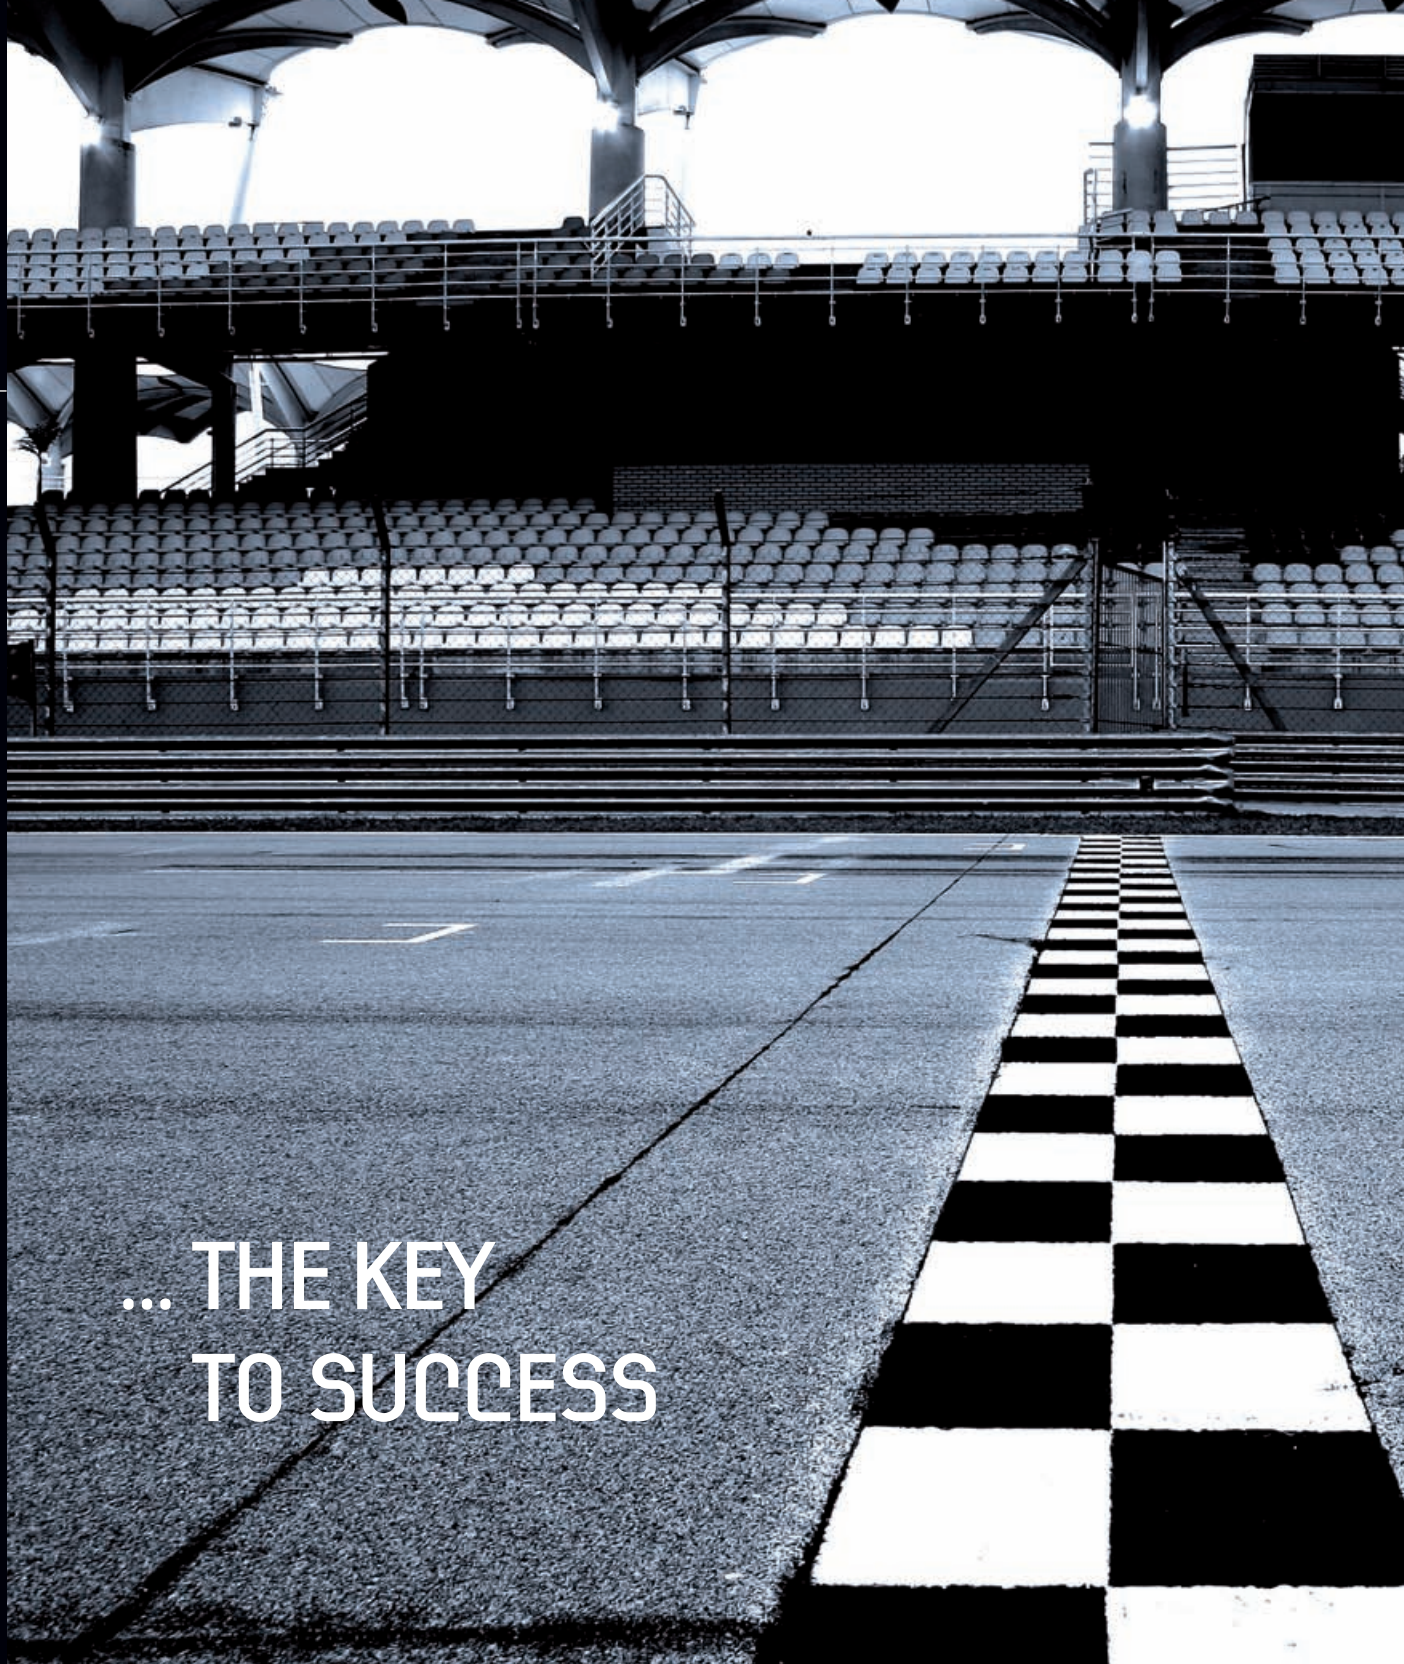

OUR GOAL...

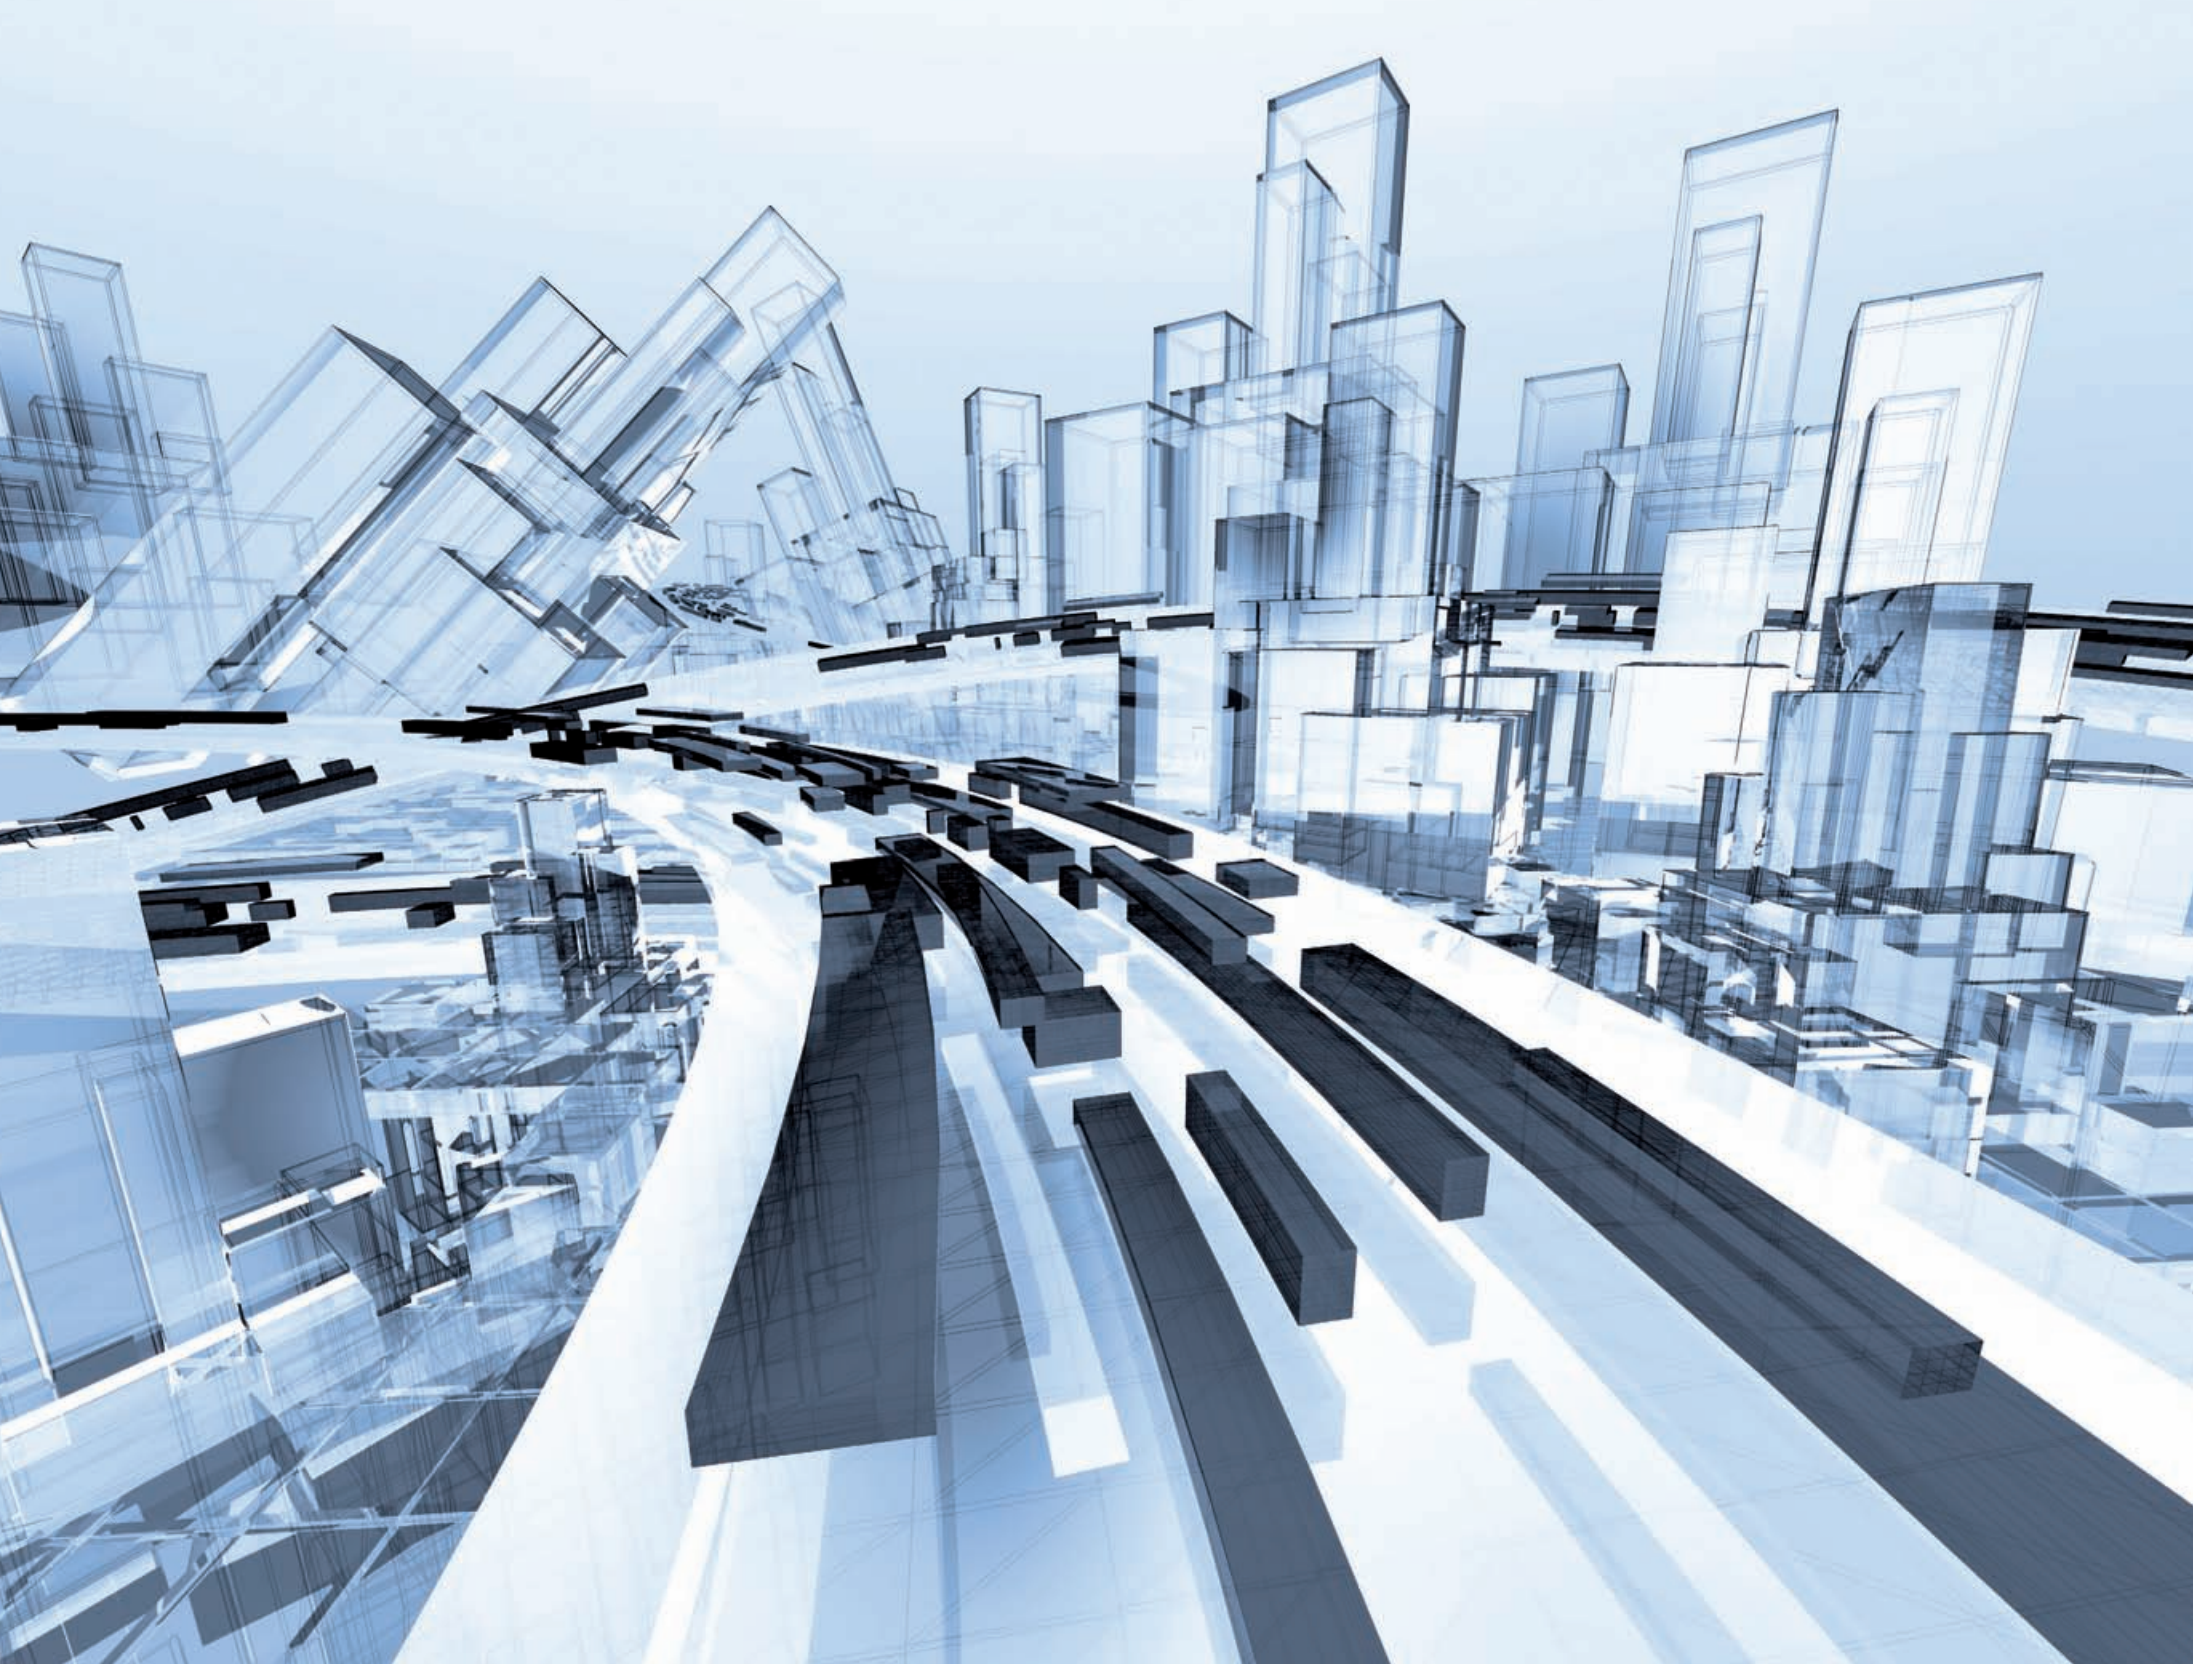

Our history is a story of continuous improvement and evolution. Every day we try to go further than we had imagined...

... THE KEY
TO SUCCESS

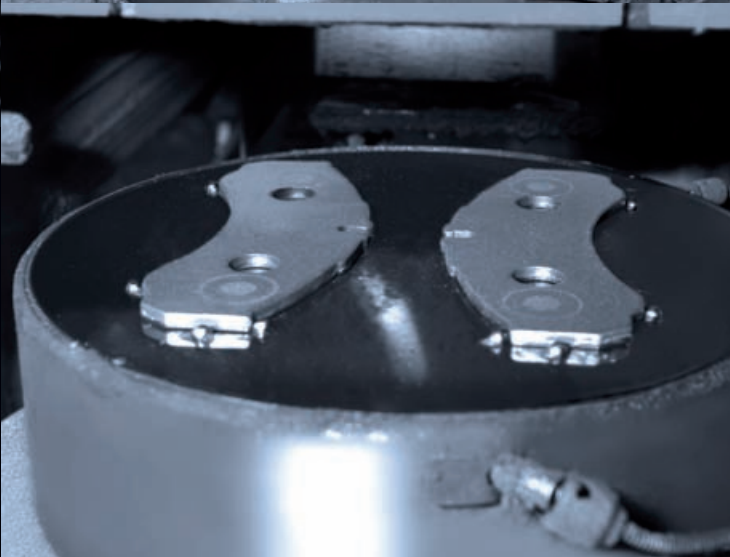

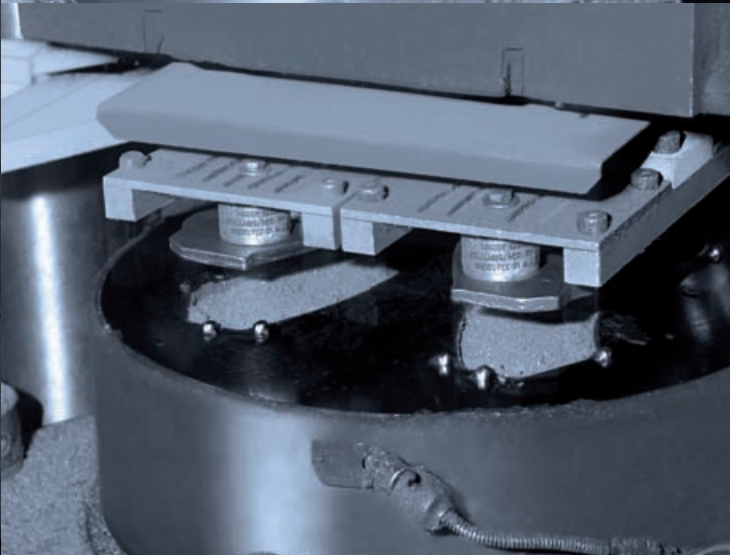

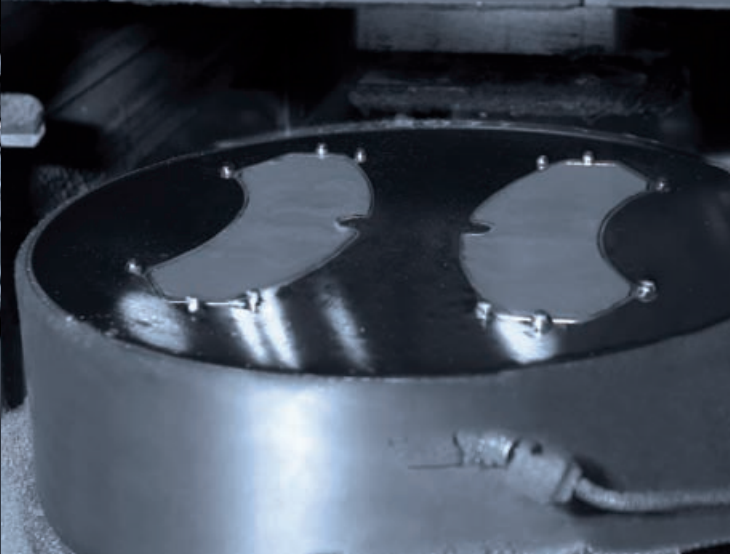

100% AFTERMARKET

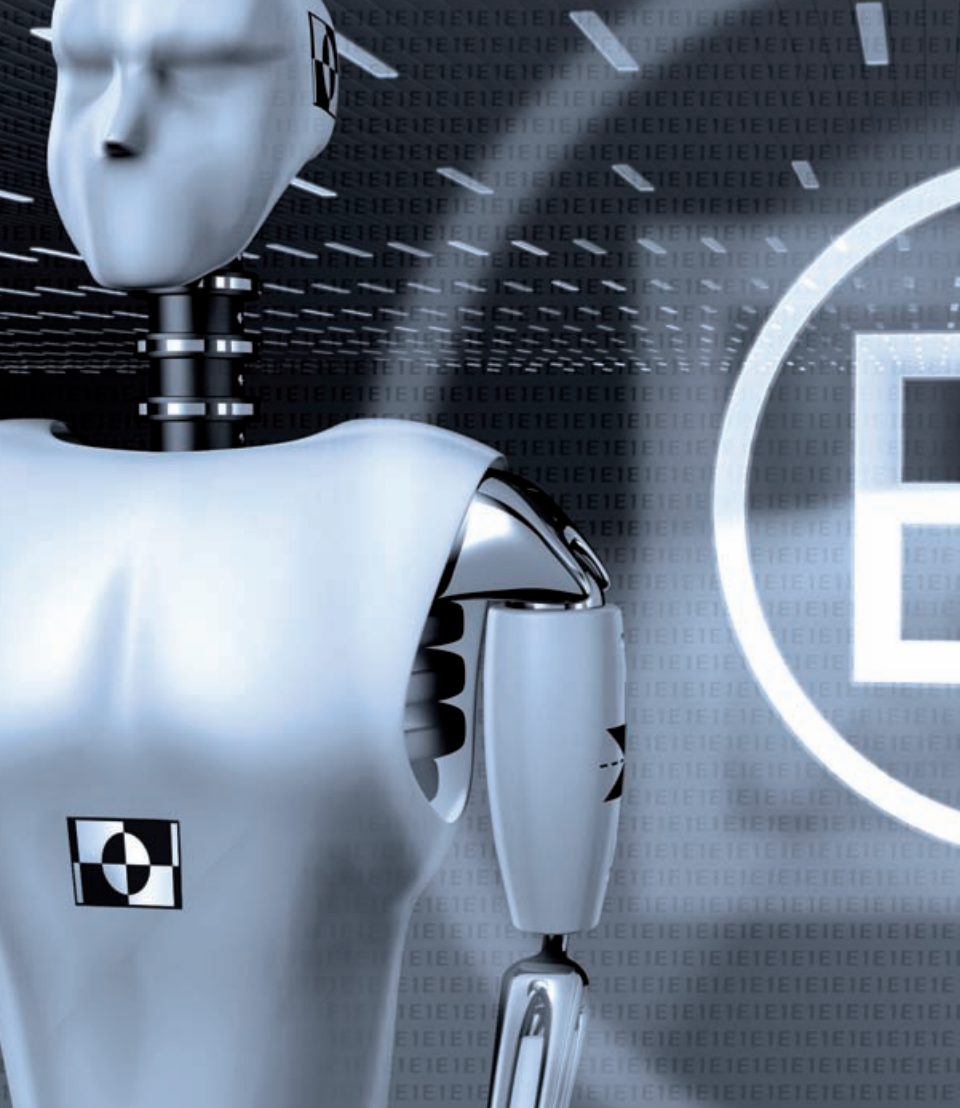

What could seem to be a handicap for some, for Remsa is something to be proud of as well as an advantage. You are Aftermarket and Remsa is Aftermarket. We are very pleased to be able to offer you everything you need to have a winning aftermarket friction programme.

INDUSTRIAL CAPABILITY

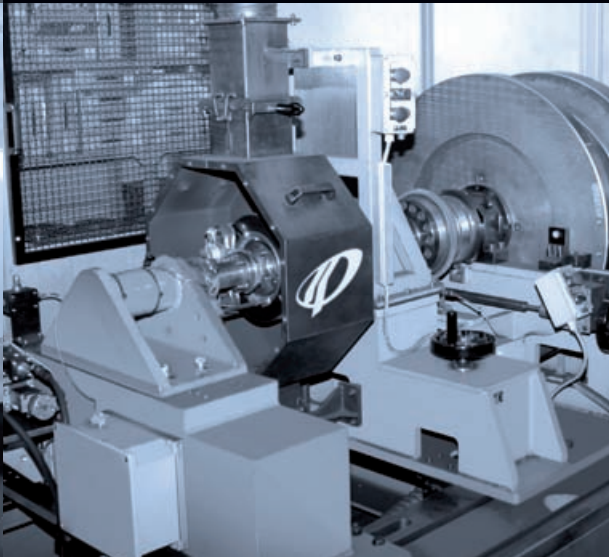

We offer you a worldwide braking company with a global vision of the business. Remsa is Europe's leading Aftermarket friction manufacturer with a production of more than 20 million brake pad sets and 2 million brake shoes. The company operates 12 plants in Europe, America and Asia with the most flexible and adaptable production systems in order to satisfy the specific needs of every customer. Every day our plants have a mission: To produce 400.000 parts with the quality standard you demand and deserve.

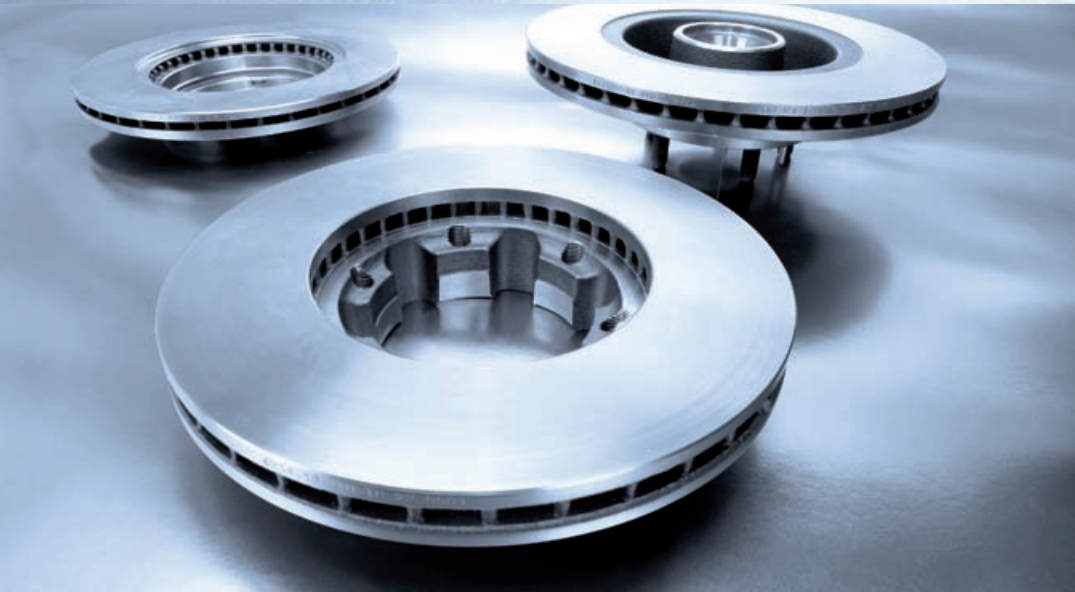

TECHNOLOGY

Our R&D Department run more than two million km of tests per year , checking and researching both, the production and the development of new materials. We invest heavily in developing our technology and products, to ensure that your safety is guaranteed.

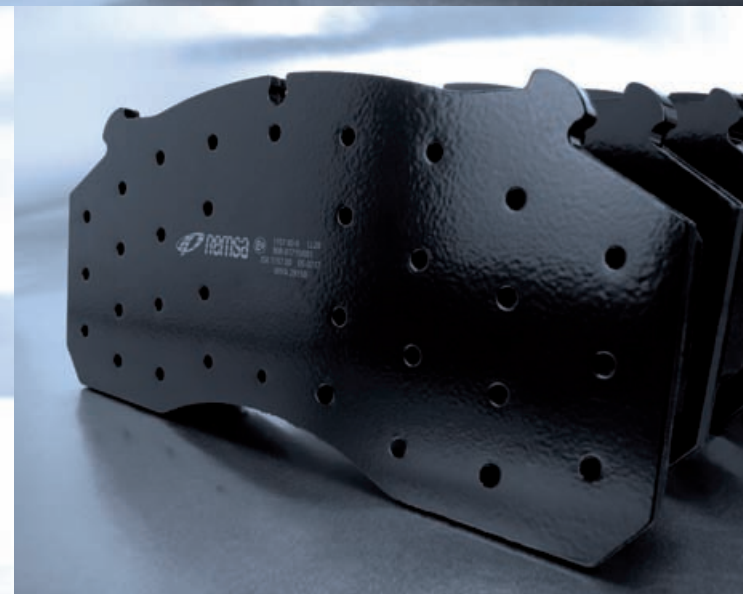

PRODUCT

Our company philosophy has always been focused on improvement, growth, imagination and intuition as means to reach our goals and become your specialized brake supplier.

Remsa product specifications are first class, always matching or exceeding O.E. requirements. The high performance of our products achieved by our R&D department is guaranteed with comprehensive product homologation programmes: ECER90 for pads and shoes and KBA for brake discs. All these approvals are obtained by achieving good results on the most demanding product tests, both in the laboratory and on test tracks.

LOGISTICS

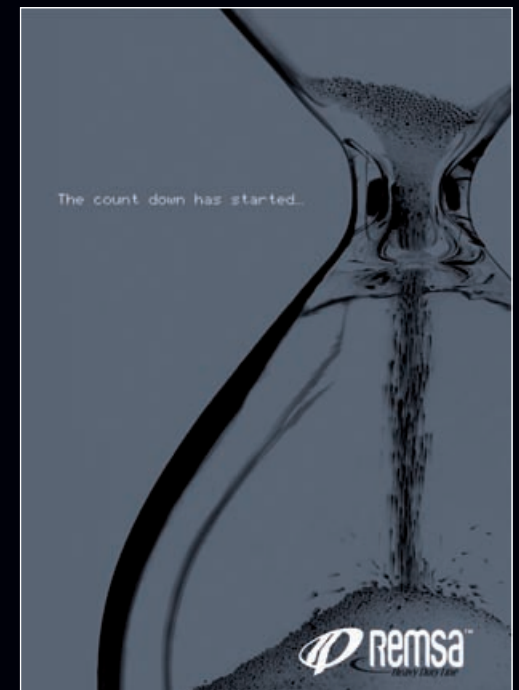

Our products are distributed worldwide from one state of the art logistic centre located in Spain. This facility is able to stock more than 3.5 million sets of brake pads, discs, shoes, brake kits... We have a very special mission: To deliver all orders in record time and 100% complete. We design the way to make anything possible.

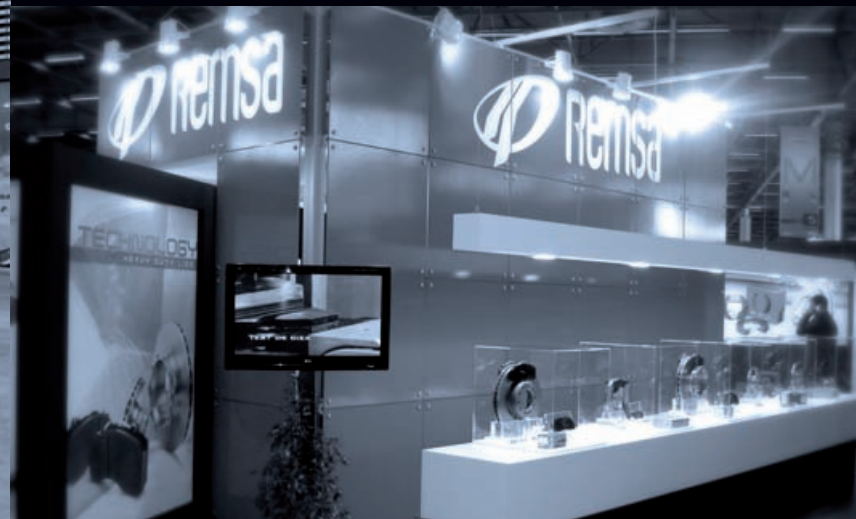

MARKETING SUPPORT

At Remsa we position our products at the level they deserve and we focus in providing our customers with all necessary support and information required such as: catalogues, merchandising, exhibitions, motorshows, etc.

REMSA ADD VALUE

We work very hard to make our goals a reality. However, the most important thing is to share the objectives with our customers and work together towards a common achievement. Come and enjoy the Remsa experience with us.
